Desert Claims

The Commissioner of the General Land Office has issued recent supplemental instructions in regard to desert land entries, requiring all applicants at the time of filing their desert land declaration to also file plans describing in detail the source of water supply, character of irrigation works constructed, in course of construction, or proposed to be constructed, that is, reservoirs for storage, canals, flumes or other methods by which water is to be conveyed to the land; or if by diversion, the nature of the flow of streams or springs, whether perennially flowing or intermittent. It must be shown whether the irrigation works are by an irrigation district, a corporation, an association or by the applicant himself. If the works have not been constructed a general statement as to the proposed plan, whether surveys and investigations have been made, and by whom to demonstrate the existence of a sufficient water supply. If irrigation is to be by artesian wells or pumping from underground sources, evidence must be submitted as to the existence of such water supply. In this connection a specified showing must be made as to the elevation of the land, character of the soil and to what point upon the tract the ditch or lateral is to be extended. The Map required to be filed must be sufficiently definite to show a practicable and feasible plan for conducting water to the land to be irrigated,

Creating Business. Some men undertake to show that "the gun isn't loaded" immediately provide occasion for undertaking of another sort. Seems This way. Some men succeed in life by minding their own business. Others manage to draw large salaries for neglecting other people's business.—Washington Star.
